

Search Term for Data:
Facebook Users by Country Data

Questions

1. How many users worldwide does Facebook have?
2. Which Country has the most users?
3. Which country has the most users per country population?

Hypotheses

- There are over 1 million users per country, or at least for most countries.
- Being an American-based company, I would guess the US has the most users.
- America probably has the highest percentage as well.
- Countries with fewer electronics (such as phones and computers) will have fewer users.
